

"My Leadership Outfitters experience still stands out as the most valuable development program I have ever taken part in. I still carry my notes around everyday in my brief case so I can read them from time to time, and that was nine years ago."

— Director

"I've learned techniques and new approaches to management from every course I've attended, but the Coaching Intensive gave me an entire new mindset that has stayed with me and seeped into everything I do."

— Vice President

COACHING INTENSIVE

CUSTOMIZED DEVELOPMENT ON YOUR TIME

Want to lead your best life possible, but having a hard time fitting it into your busy schedule? Perhaps you are unsure of how to get it? Our Coaching Intensive may be just what you are looking for.

WHAT IS AN INTENSIVE?

We have taken our 4-1/2-day leadership development retreat and customized the time just for your schedule, with additional tools and practices to enhance your development. You get four customized sessions to work 1-on-1 with one of our coaches. If it's a virtual engagement, we will split the time into manageable Zoom sessions. The focus is you and your effectiveness, identifying your habits that hinder so you can begin creating what does work.

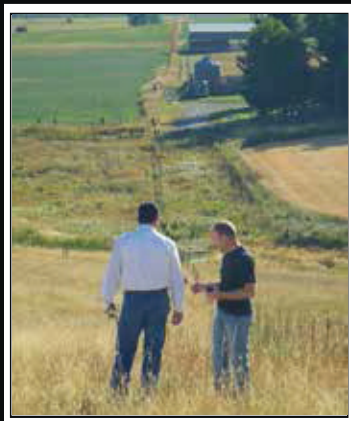

You learn, at your own pace, how to achieve Leadership Mastery, and discover breakthroughs in your personal and professional development you never thought possible. We provide a balance of exploring and learning with time to process between each session. It's interval training at it's best, allowing for integration.

"What you offer is game changing. The style and methods you use cannot be replicated."

—Senior Vice President

WHAT YOU'LL LEARN

1. Recognize how your emotional reactions are ruling your decisions and learn how to shift.
2. Listen more deeply to notice what could be behind the words people are not saying.
3. Take more personal responsibility for your behavior and how you affect others instead of blaming them or becoming a victim.
4. Resolve conflict more quickly—in hours instead of days or weeks.
5. Understand other people's concerns and get curious about their perspective.
6. Identify how you may unconsciously contribute to breakdowns in communication that make it difficult to connect with people.
7. Change the way you handle stressful situations.
8. Understand your "habits that hinder" and how they diminish your leadership influence.

"The experience for me was life-changing. I learned how I was contributing to the breakdowns I was having within my team and the senior leadership team. But more importantly I learned how to improve my relationships and deal more effectively with conflict."

— Senior Vice President

To set up your
Coaching Intensive,
